Dear AMVETS Family

It sure has been an awful fast month and we seemed to pack a lot into it. The queen is building back up which is a good thing. The month started off with the build a burger on the fourth of July done by Paul and Shirley, Much thanks to them for heading up that endeavor it was greatly appreciated by the membership and there was a good turn out.

The riders had their first full blown out bike night on the third Saturday of the month, and what a night it was. There was plenty of fun to go around. The bratwurst dinner and dessert was great and the auctions , bottle raffles and 50/50 raffles kept everybody moving and on their toes. If that didn't keep you moving I'm sure that the FDR band kept you awake.

It was all and all a very pleasant night and we are looking forward to the next bike night on the 16th of August.

During this next month I would encourage everyone to get a calendar and check for upcoming events. .Please make a sincere effort to make your meeting this month. Your input and opinions are greatly appreciated. There are many things going on around the post and I encourage you to be a part of it. After all, it's your post! What comes out of the post is only as good as what is put into it! I can tell you that ladies, sons, and riders have some things in the works and are in the planning stages of a few projects that will be of interest to many of you. As there are no holidays this month we will be having the usual monthly functions. Please consult the calendar for more information on these events. Next month instead of celebrating Labor Day, we will be putting our resources and efforts into a memorable 9-11 Remembrance function here at the post, more news to come on that in the future. also heads up the Veterans Day parade will be in November and the planning committee for the float will be getting together in the next few months to make our entry this year bigger and better than the one last year, which may prove an little challenging because they did such a great job last year as always please go to your meetings and get involved with your post and the functions that we do. It is quite a rewarding experience
